 Summary of significant accounting policies and other disclosures:

On March 28, 1995, the Company entered into a Joint Venture Contract with Shanghai Electronic Components Corp. providing for the formation of a joint venture (the "Joint Venture") in China having a 20 year duration for the development, manufacture and marketing of multifunctional telecommunication products utilizing the Company's flat panel and associated technology. The Company owns a 55% interest in Shanghai CopyTele Electronics Co., Ltd. (the "Joint Venture Company"). The remaining 45% is owned by Shanghai Electronic Components Corp. (35%) and Shanghai International Trade and Investment Developing Corp (10%). The Company's initial capital contribution consists of both cash and certain technology that has been licensed by the Company to the Joint Venture pursuant to a Technology Licensing Agreement entered into on the same date as the Joint Venture Contract. Reference is made to the Management's Discussion and Analysis of Financial Condition and Results of Operations section for further discussion involving this joint venture arrangement.

CopyTele, Inc. has reflected its investment in the Joint Venture Company under the equity method of accounting in the accompanying condensed financial statements. Under the Joint Venture Contract, CopyTele, Inc. controls four of the seven votes of the Joint Venture Company's board of directors. Under certain circumstances, decisions involving the Joint Venture Company require either a unanimous or twothirds vote of the Joint Venture Company's board of directors.

The condensed financial statements (unaudited) of Shanghai CopyTele Electronics Co., Ltd. as of July 31, 1995 and for the period from May 18, 1995 (inception) through July 31, 1995 are as follows:

Reference is made to the October 31, 1994 audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 1994, for more extensive disclosures than contained in these condensed financial statements.

The information for the three and nine month periods ended July 31, 1995 and 1994 and for the period from November 5, 1982 (inception) through July 31, 1995 is unaudited, but in the opinion of the Company, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation of the results of operations for such periods have been included. The results of operations for interim periods may not necessarily reflect the annual operations of the Company.

The Company invests principally in short term highly liquid financial instruments with original maturities of less than three months, which have been classified as cash equivalents in the accompanying condensed balance sheets. The cost of these investments approximates market value.

The Company has adopted all recently issued accounting standards which have a material impact on its condensed financial statements.

(2) Stock option plans:

Information regarding the Company's stock option plan, adopted by the Board of Directors on April 1, 1987 (the "1987 Plan"), from October 31, 1994 to July 31, 1995, after adjustments for applicable stock splits, is as follows:

	Shares	Range of Option Price Per Share
Shares under option at October 31, 1994 Exercised Cancelled	1,687,860 ( 446,000) ( 172,800)	\$ 3.88 - \$13.88 \$ 3.88 - \$ 5.50 \$ 5.50 - \$11.25

As of July 31, 1995, all of the options to purchase shares of Common Stock granted and outstanding under the 1987 Plan were exercisable. Upon the approval of the 1993 Stock Option Plan (the "1993 Plan") by the Company's shareholders in July 1993, which had been adopted by the Company's Board of Directors on April 28, 1993, the 1987 Plan was terminated with respect to the grant of future options. The 1993 Plan was amended as of May 3, 1995 to, among other things, increase the number of shares of the Company's Common Stock available for issuance pursuant to grants thereunder from 3 During August 1995 and September 1995 to date, the Company received proceeds aggregating approximately \$267,000 relating to the exercise of options to purchase 50,000 shares of Common Stock pursuant to the 1987 Plan.

#### Item 2. Management's Discussion and Analysis of Financial

Condition and Results of Operations.

The Company, which is a development stage enterprise, was incorporated on November 5, 1982 and has had no revenues to support its operations since its inception. The Company's principal activities presently relate to a joint venture (the "Joint Venture") with Shanghai Electronic Components Corp. ("S.E.C.C.") of Shanghai, China. It is presently contemplated that the Joint Venture, in conjunction with the Company and S.E.C.C., will develop, manufacture and market products worldwide in the telecommunications field. There is no assurance, and the Company is not able to predict, if and when marketable telecommunications products incorporating the Company's flat panel technology will be developed or produced. Even if the Company were to produce marketable products, directly or through the Joint Venture, there is no assurance that the Company will generate revenues in the future, will have sufficient revenues to generate profit or that other products will not be produced by other companies that will render the products of the Company or the Joint Venture obsolete.

In reviewing Management's Discussion and Analysis of Financial Condition and Results of Operations, reference is made to the Company's Condensed Financial Statements and the notes thereto.

## Results of Operations

Selling, general and administrative expenses for the nine and three month periods ended July 31, 1995 and 1994 and for the period from November 5, 1982 (inception) through July 31, 1995 were \$2,314,749, \$2,929,113, \$835,420, \$890,957 and \$24,945,066, respectively. These amounts include research, development and tooling costs of approximately \$1,513,000, \$2,145,000, \$553,000, \$605,000 and \$16,045,000, respectively, as well as normal operating expenses. The decrease in selling, general and administrative expenses during the nine and three months ended July 31, 1995 as compared to the same periods ended in 1994 resulted primarily from decreases in engineering supplies expenditures necessitated by the present phase of the Company's development program and related activities. Professional fees decreased during the fiscal 1995 periods, especially patent application preparation and filing fees, offset somewhat by an increase in legal fees, primarily associated with the Joint Venture. Travel related expenses, also associated with the Joint Venture, increased for the nine month period ended July 31, 1995 as compared to the same period in the prior year. The three and nine month periods ended July 31, 1995 also include the Company's portion of the Joint Venture Company's loss.

Since November 1985, the Company's Chairman of the Board and its President have waived salary and related pension benefits for an undetermined period of time. Four other individuals, including a

former officer and senior level personnel, waived salary and related pension benefits from January 1987 through December 1990. Commencing in January 1991, these four individuals waived such rights for an undetermined period of time and they did not receive salary or related pension benefits through December 1992. The Company's Chairman of the Board, its President and the three senior level personnel (exclusive of the former officer) continued to waive such rights commencing in January 1993 for an undetermined period of time. One additional employee is also currently waiving such salary and benefit rights for an undetermined period of time.

The increase in interest income during both the nine and three months ended July 31, 1995 as compared to the same periods ended in 1994 primarily resulted from an increase in interest rates available for investment. Funds available for investment during the nine and three month periods ended July 31, 1995 and 1994, on a monthly weighted average basis, were approximately \$6,658,000, \$7,257,000, \$7,766,000 and \$6,975,000 respectively. The investment instruments selected by the Company are principally money market accounts, treasury bills and commercial paper.

The Company has adopted all recently issued accounting standards which have a material impact on its condensed financial statements.

Liquidity and Capital Resources

Since its inception, the Company has met its liquidity and capital expenditure needs primarily from the proceeds of the sales of Common Stock in its initial public offering, in private placements, upon exercise of warrants issued in connection with the private placements and public offering, and upon exercise of stock options pursuant to the 1987 Plan and the 1993 Plan.

During August 1995 and September 1995 to date, the Company received additional proceeds aggregating approximately \$267,000 relating to the exercise of options to purchase 50,000 shares of Common Stock under the 1987 Plan. During the same periods, the Company received additional proceeds aggregating approximately \$31,000 relating to the exercise of options to purchase 5,000 shares of Common Stock under the 1993 Plan.

The Company believes that even without sales it will have sufficient funds into the fourth quarter of fiscal 1997 to maintain its present level of development efforts, and to make the balance of its initial capital contributions to the Joint Venture Company of approximately \$850,000 of its total initial capital contribution of approximately \$1.2 million. The Company anticipates that it may require additional funds in order to participate in the Joint Venture Company following its initial capital contributions and to continue its research and development activities. The Company's estimated funding capacity

indicated above assumes, although there is no assurance, that the waiver of salary and pension benefits by the Chairman of the Board, the President and senior level personnel will continue.

The National Association of Securities Dealers, Inc. ("NASD") requires that the Company maintain a minimum of \$4 million of net tangible assets to maintain its NASDAQ - NMS listing. The Company anticipates that it will seek additional sources of funding, when necessary, in order to satisfy the NASD requirements.

There can be no assurance that adequate funds will be available to satisfy the Company's Joint Venture and NASD funding requirements or that, if available, such funds will be available on terms and conditions favorable to the Company.
