Title: President and Chief Executive Officer

ITUS Corporation Forms Alliance with Seramatrix Corporation

SAN JOSE, CA – March 5, 2018: ITUS Corporation (NASDAQ: ITUS) today announced that ITUS and Seramatrix Corporation have signed an agreement to bring the power of Cchek™, ITUS's proprietary, AI-driven liquid biopsy cancer diagnostic technology to Seramatrix's substantial expertise in immune monitoring assays. Seramatrix flow cytometry and related data analysis services are already widely used in immunotherapy drug trials.

Dr. Amit Kumar, ITUS's Chairman and CEO, stated, "There is potential for tremendous synergy from the complementary expertise of ITUS and Seramatrix. We believe that the additional capabilities provided by the Seramatrix alliance will allow ITUS Corporation to expand the commercial opportunities of Cchek™. Also, we believe that the application of our artificial intelligence expertise to Seramatrix's flow cytometry immuno-profiling services will allow Seramatrix to offer unique and superior capabilities unavailable to other laboratories." Dr. Kumar continued, "As we develop our early cancer detection diagnostic, we expect this collaboration will create additional exposure of our technology to potential corporate partners."

Henry Hepburne-Scott, VP of Business Development of Seramatrix, said, "We are delighted to enter into this agreement with ITUS as our respective technologies and capabilities are highly complementary. In particular, we believe that the application of ITUS artificial intelligence will add value to our unique and proprietary MDSC monitoring technology and we are looking forward to exploring novel opportunities with our extensive network of academic and commercial partners."

Seramatrix Corporation

Seramatrix provides solutions to the problem of monitoring immune response to immunotherapies in clinical trial cancer patients. In partnership with the Ludwig Institute for Cancer Research (LICR) and other leading institutes Seramatrix has developed a suite of immunoassays that monitor anti-tumor immunity in patients enrolled into clinical trials for novel cancer therapies. Seramatrix is part owned by the LICR.

ITUS Corporation

[ITUS](#), a cancer-focused biotechnology company, is harnessing the body's immune system in the fight against cancer. Its wholly owned subsidiary, Anixa Diagnostics Corporation, is developing the Cchek™ platform, a series of non-invasive blood tests for the early detection of solid tumor based cancers, which is based on the body's immunological response to the presence of a malignancy. Its majority owned subsidiary, Certainty Therapeutics, Inc., is developing CAR-T based immuno-therapy drugs which genetically engineer a patient's own immune cells to fight cancer. ITUS also continually examines emerging technologies in complementary or related fields for further development and commercialization. Additional information is available at www.ITUScorp.com.
